patients' lives  
for the better

ROTHSCHILD FOUNDATION  
HOSPITAL  
HEAD AND NECK EXPERTISE

# Welcome to our hospital in Paris.

## WHY CHOOSE OUR HOSPITAL

Rothschild Foundation Hospital:

- is a leading hospital for head and neck diseases (ophthalmology, neurosciences, ENT) taking care of both adults and children;
- offers medico-surgical expertise, combining the latest developments in imaging, cutting edge treatments and customized care, on a single location;
- gives access to the top-notch care and to the latest innovative research programs (stroke, epilepsy, rare diseases, cancers...);
- offers a global medical care covering all the diseases thanks to its partnership with Diaconesses Croix St-Simon Hospital;
- is a member of the French HealthCare organization;
- works in partnerships with ambassies and major health insurance companies;
- provides at single invoice (including a complete care package).

# HOW TO SEEK TREATMENT AT THE ROTHSCHILD FOUNDATION HOSPITAL?

For your complete peace of mind throughout the care process, **a single and sole contact follows up each patient and their relatives**, throughout their stay in Paris.

Our International Patient Office and our interpreters ensure:

- Customized support;
- Support with planning out your stay;
- Help and following up, in terms of paperwork and financial procedures;
- An interface with our doctors and surgeons, in order to make sure that you understand them, and that they too understand you and your concerns.

**DIAGNOSIS AND FOLLOW-UP CONSULTATIONS CAN BE PLANNED IN OUR OUTPATIENT MEDICAL CENTER (INSTITUTE MEDICAL ARGENTINE) JUST NEAR THE ARC DE TRIOMPHE (PARIS 8<sup>e</sup>)**

# SHARING OUR CARE AND RESEARCH EXPERTISES AROUND THE WORLD

Beyond the care of international patients, the Rothschild Foundation Hospital offers a whole range of services in terms of assistance to hospital development.

- Organizing medical-surgical training sessions (fellowship programs)
- Running European clinical trials and innovative research programs
- Standardizing and naming medical-surgical practices
- Advising for the opening of new units in our specialties
- Coordinating key actors and leading project aiming at creating new hospital infrastructures
